### Doctor of Psychology in Clinical Psychology (PsyD)

#### Degree Requirements

A bachelor's degree from a regionally accredited institution is required to apply to the Clinical PsyD Program at PCOM. We will consider exceptional applicants who possess a bachelor's degree only. Most applicants to PCOM's Clinical PsyD Program also possess a master's degree in mental health counseling, psychology, social work, nursing, counseling, school psychology, family therapy, or pastoral counseling from a regionally accredited institution in addition to a bachelor's degree.

Individuals with degrees in other fields will be considered on a case-by-case basis.

#### GPA Requirements for Bachelor's Level Applicants

Students with exceptional performance at the bachelor's level may apply to the program without having completed a master's degree. Bachelor's level applicants must have a minimum cumulative undergraduate GPA of 3.0 or higher, and a psychology GPA of 3.5 or higher.

#### GPA Requirements for Master's Level Applicants

Students who have completed both a bachelor's and master's degree in a related field may apply to the program. Competitive applicants at the master's level will have a minimum cumulative undergraduate GPA of 3.0 or higher, and a minimum cumulative graduate GPA of 3.3 or higher. Competitive post-master's students also earn an undergraduate psychology major GPA of 3.5 or better from a regionally accredited college or university.

#### Coursework Requirements

In order to ensure that program courses are taught at the highest possible level, applicants must have completed the following courses during undergraduate or graduate education prior to admission:

- Statistics/Research
- Abnormal Psychology or Psychopathology
- Theories of Personality
- Developmental Psychology

The Admissions Committee evaluates applicants on a number of factors. These include past academic performance, letters of recommendation (at least one letter of recommendation should be from a doctoral-level psychologist), the content and writing style of autobiographical essays, prior work history and volunteer experiences, research activities and publications, presentations at workshops or conferences in psychology or a related field, membership in professional organizations and personal and professional presentation in the interview. Intellectual ability, academic potential, strong writing skills, emotional stability, maturity, integrity, motivation and high ethical standards are necessary for successful program completion and acceptance into the professional community.

#### Application Process

This academic program operates on a rolling admissions basis. The application closes in August 2026; however, an early application is highly recommended.

The Faculty Committee on Admissions uses two priority deadlines to evaluate completed applications. The deadlines are December 30, 2025

and March 31, 2026. New students will be accepted into the program until the desired class size is achieved.
