

BEHAVIORAL INTERVENTION

The PCOM Behavioral Intervention Team ("BIT") is a cross-functional, multi-disciplinary assessment group that responds to students who exhibit either troubling behavior or are in apparent/potential distress.

PCOM BIT provides proactive and collaborative assistance to students who are exhibiting concerning behaviors. The PCOM BIT will coordinate college resources to address the needs of students who are experiencing significant behavioral disturbances in order to recommend collaborative and purposeful interventions aimed at helping students achieve success and for the wellbeing of the PCOM community.

Concern can be forwarded to the BIT team via email: BIT@pcom.edu
