The Graduate Program in Biomedical Sciences provides an opportunity for students with baccalaureate degrees to study the biomedical sciences as preparation for science careers or further graduate or professional study.

One-Year Master's Program

Two-Year Master's Program

PhD Cancer Biology

## **Master's Program**

The Master's program presents a broad content base in the basic biomedical sciences with a strong emphasis on human medicine and clinical applications during the first academic year, followed by a concentration in the second year.

Degree completion concentrations are offered in several topics at PCOM's campuses. All first year courses are required for the degree, Master of Science in Biomedical Sciences. Students who pursue the master's must declare their concentration by the end of their first year.
